Management

Architecture, design, conceptualization

Specialized in the development of Landscape Hotels

1 We design
by thinking like
hotel managers

We focus on the customer experience from the earliest stages of the project.

2 We support the
entire development
of the project

From the feasibility study to project development, licensing, opening, and following management.

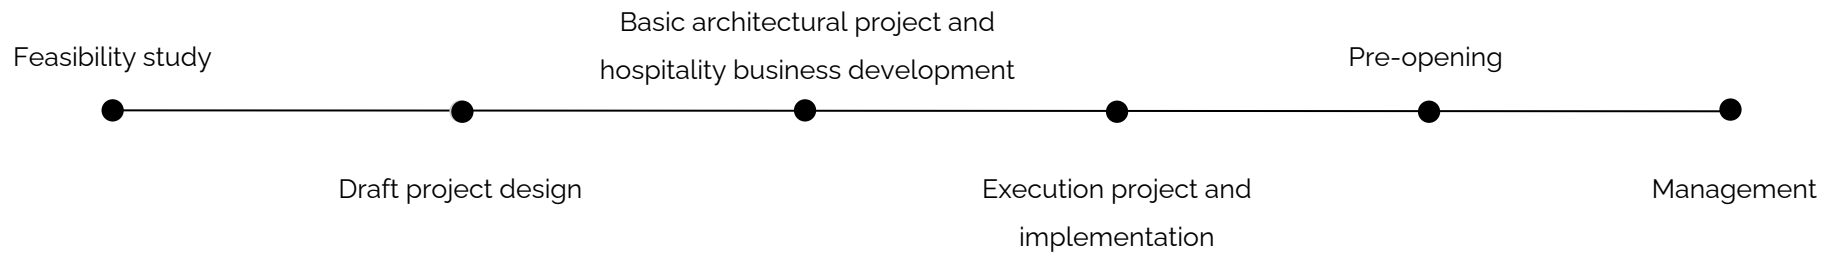

3 We create **disruptive designs** that make us stand out in the market

The architectural design and the core concept of the project are some of the keys to the success of the projects.

Customer's happiness is the core of our designs and management

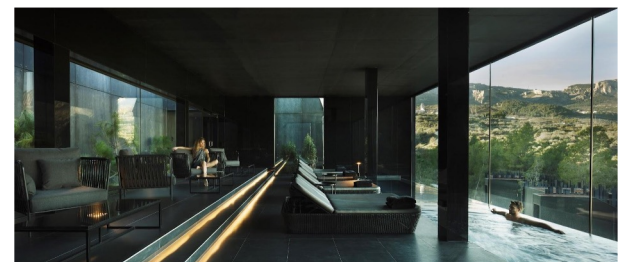

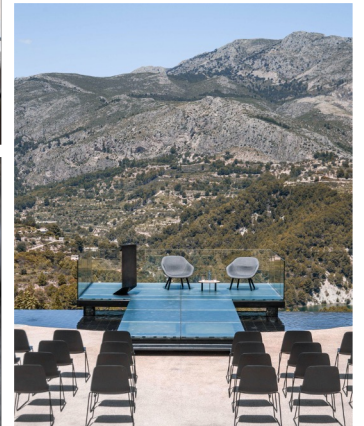

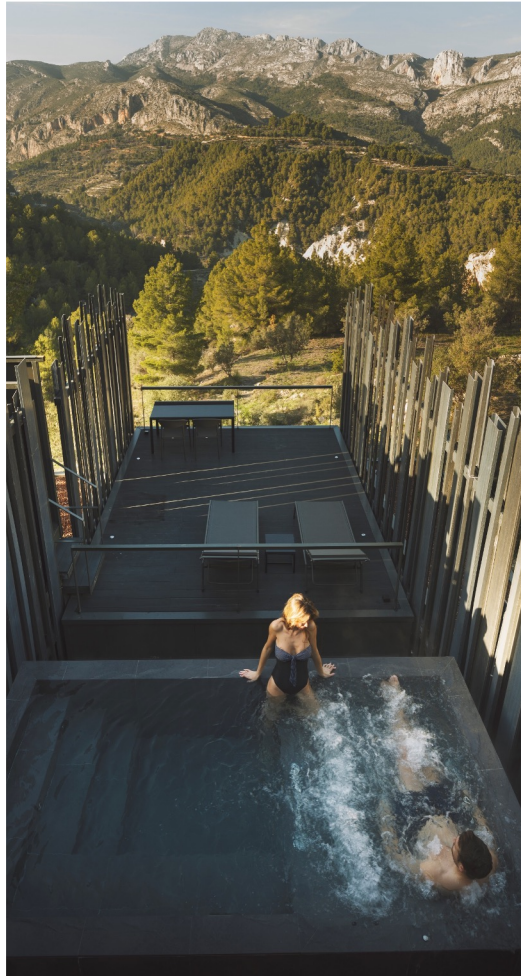

Adding value along the entire process

Considered the Best Nature
Hotel in Europe
